

Presents **Shade Whitesel on Toy Play and Marker Cues**
Creating a “thinking” reinforcement. Foundation for all sports.
January 20-21, 2018 held at Fun Fur Paws - Mt. Vernon, WA

Have a dog that you want to use tugging or chase to reinforce behaviors? Have a dog that loves to chase, but doesn't love to bring the toy back? Have a dog with excellent toy skills but when you ask for obedience or agility skills, it all deteriorates? This seminar covers how to harness those prey instincts into a reinforcement that you can use in training. Also included is the concept of different location marker cues. This seminar is excellent for students interested in putting a solid foundation on their dog for all sports.
